EXAMINER'S AMENDMENT

The Supplemental Amendment of January 31, 2007 has been entered.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. F. Jordan on February 14, 2007.

In the specification, page 2, line 4, after "2002," --now U.S. Patent No. 6,722,106-- has been inserted.

In claim 20, line 9, after "position", --and then return to the first position-- has been inserted; and

in line 12, after "on", --and parallel to-- has been inserted;

In claim 21, line 12, after "arms", --pivoting about a pivot axis-- has been inserted; and

in the last line, "a", has been replaced with --and parallel to said--.

Claims 14, 15, 18 and 19 have been cancelled.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art does not show a strapping device with a strapping roll, a strap first holding means, a carrier roll that pivots between two positions along the circumference of the strapping roll, a storage system between the two

positions of the carrier roll and wherein the strapping is not engaged in the first carrier roll position and the strapping is placed in the storage system when the carrier roll moves along the circumference of the strapping roll to the second position and the holding means engages the strapping.

Regarding claim 20, the prior art does not show a strapping device with a strapping roll, a strap holding means, a carrier that moves between a first position carrying the strapping to a second position and then returning to the first position, with the strap carrier shifting on and parallel to the axis of rotation of the strap roll when returning to the first position.

Regarding claim 21, the prior art does not show a strapping device with a strapping roll, a strap holding means, a carrier that comprises of two pivot arms pivoting about an axis and connected by a connecting section, the connecting section comprising of two parts with at least one of the arms is movable on and parallel to the pivoting axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
